Erfaringer med onde magter

Onde magter, onde kræfter eller onde ånder er ikke noget, der tales meget om i Danmark. Alligevel møder vi det i forskellige Bibel tekster, og der er kirketraditioner, som har overtaget Paulus' beskrivelse af tro som det at være involveret i en "åndelig kamp". Dertil kommer, at der er mennesker, der lever med frygt for onde kræfter/magter/ånder, samtidig med at der er en vis interesse i emnet, som afspejler sig i tv-udsendelser og diverse film, der flirter med overnaturlige kræfter.

I dette lille seminar skal vi lytte til erfaringer med onde kræfter/magter/ånder, både fra Tanzania og fra Danmark. Ikke fordi vi skal afklare noget, men fordi vi er optaget af menneskers erfaringer, og fordi vi vil lytte til hele det felt af emner, som fyldte noget for Jesus og disciplene.

Første del af seminaret bliver på engelsk, og sidste del på dansk.

Experiences with evil forces

Evil forces, powers or evil spirits is not much talked about in Denmark. Yet, we come across the subject in Bible texts, and there are church traditions, who has accepted Paul's description of faith as being involved in a spiritual battle. Furthermore, there are people who lives with fear of evil forces, powers or evil spirits, and there is a certain cultural interest in the subject, showing itself in television and movies testing supernatural forces.

In this seminar we will listen to experiences with evil forces/powers/spirits, both from Tanzania and from Denmark. Not because we aim to settle things, but because we are concerned with peoples experiences, and are eager to learn about the full range of subjects described as important by Jesus and the disciples in the Bible.

First part of the seminar will be in English, whereas second part will be in Danish.
